

ELECTRIC KETTLE

TIMEMORE FISH SMART PRO POUR-OVER KETTLE

# DESIGNED FOR STRONG STREAM CONTROL

Optimized Temperature Setting System  
Brand New Ergonomic Handle Design

# Product Features

## Stable and Large Flow

---

Precise and agile when pouring and  
stopping Stronger impact and stirring force

## Two Temperature Control Modes

---

slide on the bar or tap the button  
to control the temperature

## Pinch-style Handle

---

Forearm, wrist and the kettle  
forming into one straight line

## STRIX Temperature Controller

---

$\pm 1^{\circ}\text{C}$  Accuracy  
Auto Power-off to avoid dry-heating

# A Stream with Bigger Impact

Powerful stream with strong penetration  
maintain the pure flavor and suit better for  
professions and competitors

# Traditional Fish Smart Standard Version

# Fully Optimized Temperature Setting

Optimized temperature control algorithm  
Extra +/- button for quicker target temperature  
Switch between Fahrenheit and degree Celsius

---

# “Buttons + Sliding” Dual Temperature Control Systems

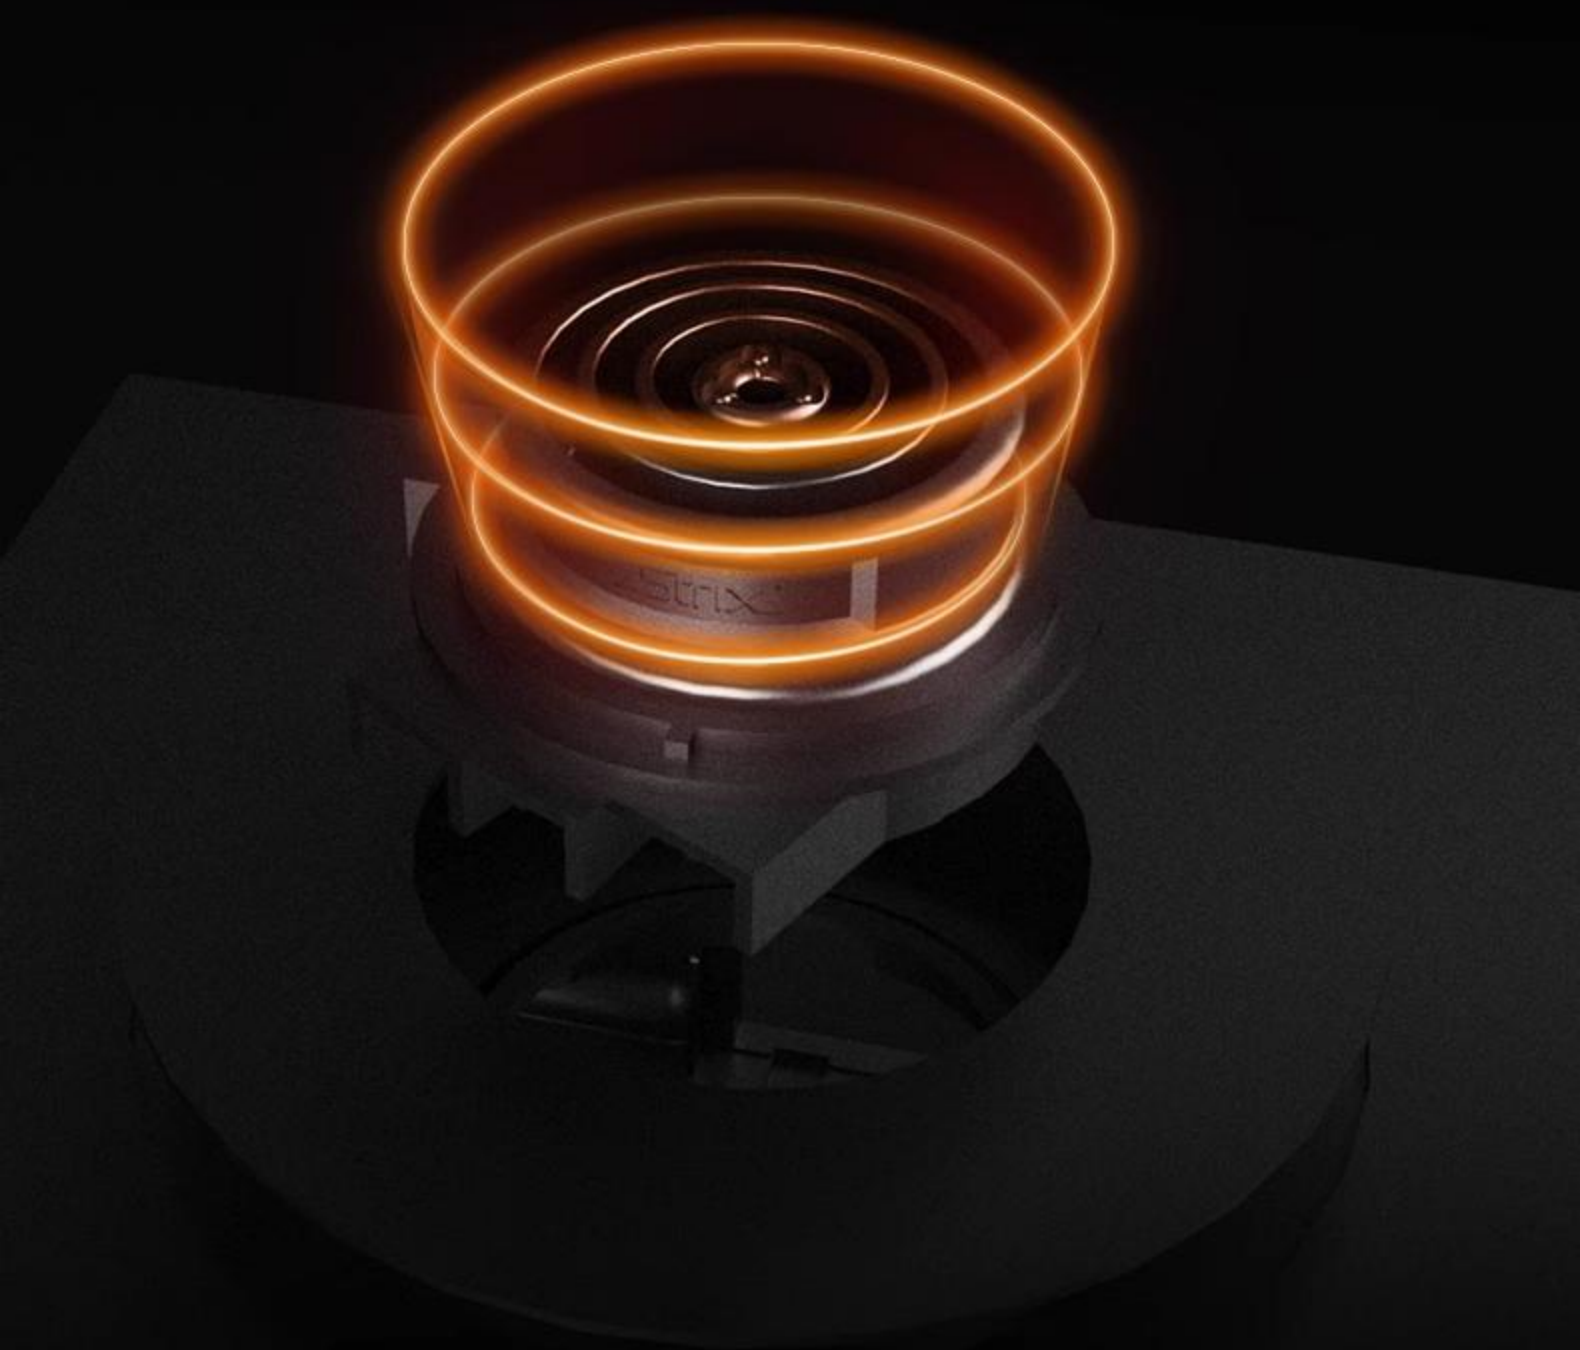

The sliding bar gets more responsive and the tap buttons  
is for fine-tuning so you can adjust easily

Holding the Temperature between 45°C-98°C.  
Long-press the HOLD button to set the target  
temperature to 100°C directly  
Long-press the (+/-) button to continuously adjust  
the target temperature

# British Strix Temperature Controller

More precise temperature control; automatic power-off  
and alarm protection against dry-heating.

# Optimized Temperature Control Algorithm

We continuously optimize the temperature setpoint and control strategy algorithms to meet strict requirements of players towards water temperature and avoiding unstable water temperature affecting their performance.

90°C-94°C

Washed Light roast coffee beans

88°C-90°C

Special processed coffee beans

85°C-88°C

Medium/Dark roast coffee beans

# Brand New Ergonomic Handle Design

Pinch-style handle enables forearm, wrist and the kettle forming into one straight line when brewing. With a gesture closer to body, easier and more energy-saving for professional users who use it with a high frequency.

# Traditional Fish Smart Kettle

There is an angle between your arm and the kettle, kettle being distant from your body, costing more energy

# Pinch-style Handle

Arm and the kettle forming into one straight line, being closer to your body, saving energy and easier to control the stream

# Left / Right-handed Handle Meeting Different Demands

To meet the demand of a wider range of users, we have designed the pinch-style handle for both the right-handed and left-handed. Enjoy a relaxed brewing moment

## Anti-scald Lid

Air-outlet located on the edge of the lid, steam coming out from the edge of the kettle to protect your fingers from the steam

# Food-grade 304 Stainless Steel

304 stainless steel, safe without odor

# 1350W Quick Heating

It can heat and boil the water super fast

Noted: For Japan and Taiwan 100-110v, its actual power may vary from 1350W.

## Fish Smart Pro Version 900mL

1350W, Capacity of 900ml  
Stronger impact and stirring force; stable and big flow

## Fish Smart Version 600mL

1000W, Capacity of 600ml Lighter in weight

---

## Fish Smart version 800mL

1500W, Capacity of 800ml  
Bigger capacity and Faster heating

---

## 900mL VS 800/600mL

	Diameter of the spout	Power	Capacity	Handle	Touch Function
<b>Fish Smart Pro Version</b>	7.0mm	1350W	900mL	Pinch-style handle	Slide/physical buttons
<b>Fish Smart Version</b>	6.6mm	1000W	600mL	Conventional handle	Slide
<b>Fish Smart version</b>	6.6mm	1500W	800mL	Conventional handle	Slide

# Product Parameters

---

## Name:

Fish Smart Pro Electric Coffee Kettle

## CAPACITY:

900mL

## Voltage:

220V

## Color:

Black

## Rated Power:

1350 W

## Material:

304 Stainless Steel, Acrylic, ABS

## Size:

Kettle Height:171mm    Width:128mm    Total Width:266mm  
Base Length:166mm    Width:152mm    Height:30mm

# Professional and Beautiful
